

Promoting your Certification

TQCSI's certification marks are recognised worldwide.

No matter which program you are certified for, take advantage of the worldwide acknowledgment of third party certified systems to promote your business.

Promote your certification and benefit from enhanced customer confidence.

Your Certification

You can promote your certification using the following examples of certification marks:

Email info@tqcsi.com to receive your Company's personalised certification mark(s).

Promotional material is available through TQCSI or you may create your own promotional material displaying your certification mark.

How to Display your Certification Mark

You may display your certification mark on any or all of your Company's promotional material as long as you do not infer your products are certified; it is your management system which has been certified (see TQCSI Rules of Certification).

Always include a description of your certification and, wherever possible, include your Registration Number and the Standard, as shown in the examples.

E-Certificates and Website Links

Electronic certificates (E-Certificates) are displayed on the TQCSI website (www.tqcsi.com) listed under Certified Organisations. Link your own website to TQCSI's site and/or link directly to your E-Certificate.

TQCSI Colours

Blue (Pantone Reflex Blue CP) for all writing and the outline of the world; the tick should be Red (Pantone PMS 485) for quality and food safety; Green (Pantone Green) for environmental and QHSE; Orange (Pantone 021) for OHS; Yellow (Pantone 803 C); and Black (Pantone 20-0198 TPM Moondrop Grapes). However, to save on printing costs we allow the same colour to be used as your Company colour in mono colour documents; other different colours are not allowed.

Display your certification with pride

TQCSI (AUSTRALIA)
